

# NEW REPAIR & SYSTEM TEST CAPABILITY

## ABB IRC 5 Test Stand

### Technical Bulletin

*K+S now has the ability to repair and functionally test components from the **ABB IRC 5 Series Robot Controller**.*

The ABB IRC 5 test stand allows K+S fully system test items after repair with full diagnostic capabilities. This system allows full function testing of the following components:

***3HAC16590 - Flex Teach Pendant***

***3HAC025338-006 – Main Servo Drive***

***3HAC14549-3 - Rectifier***

***3HAC16014-1/07 - SMU Board***

***3HAC14551-2 - Capacitor Unit***

***3HAC020929-006 - Computer Unit***

***3HAC12928-1 - Control Power Supply***

***3HAC020466-001 - Drive Power Supply***

**12 Month In-Service Warranty**

**All Units Are System Tested**

**No Charge Evaluation**
